

Leverage Your Company's  
Buying Power in Health Insurance  
Through our Multi-Employer  
Consortium with Over 470  
Other Companies using IBC,  
UHC and Aetna!

## Learn how a self-funded, multi-employer consortium can work for your company.

Join us at The Radnor Hotel on Wednesday, February 25th, as Corporate Benefits Alliance, Inc. presents a very powerful Multi-Employer Consortium Trust that exists for Employers with 50 to 5,000 employees to leverage their buying power in the Group Health Insurance marketplace. Our consortium health insurance trust currently insures over 470 employer groups in the state of Pennsylvania and returned over \$16 million dollars in surplus last year!

Through our Consortium, you as an employer can take full control of your health insurance plan-designs, contributions and Provider Networks to affect your net cost of benefits. (We can use the Independence Blue Cross PPO Network, Aetna or United Healthcare.) The Power of this approach for an employer is that the plan will function similar to a fully-insured plan, in terms of set monthly "premium" costs, however it also provides claims transparency and robust Wellness programs. Most important, the Plan returns 100% of any surplus dollars not spent on medical claims back to you, the plan-sponsor employer, at the end of a plan-year!

This model mitigates the financial risk to an employer, provides transparency, and enables a return of surplus, which are all impossible in the fully-insured market. If you are interested in healthcare transparency, control, and cost savings, you should attend this seminar!
